*Baskets of love, hope, and celebration*

## Congratulations

on your newborn baby! We are thrilled to welcome this wonderful life into the world with you! While this is a time for celebration, we also know that this diagnosis might be overwhelming and scary at first, and that's okay. Beautiful Beginnings is here for you, when you're ready. We are connected through our similar stories and would love to lend an understanding ear, provide you with information, or support! Beautiful Beginnings is part of the DCDSIG, and together we offer new families guidance, support, and most importantly life-long friendships. Beautiful Beginnings was created to celebrate new babies with Down syndrome by delivering baskets filled with positivity. Each basket also has great resources and information about Down syndrome for new families. We hope you enjoy the basket and this amazing time with the newest addition to your family. Congratulations again!

The Beautiful Beginnings Team

## Who is DCDSIG?

The Delaware County Down Syndrome Interest Group was formed in 1990 by a group of families touched by Down syndrome, and we are dedicated to living successfully. We believe our children's futures are bright. We reject the notion that a diagnosis of Down syndrome predetermines a person's value or future. We strive to promote professional and public awareness and encourage inclusion for those with Down syndrome.
